KEY FEATURES

ECO-POWR™ motor uses up to 32% less energy than traditional motors while still delivering 5.0 hp of performance

Equipped with medical/rehab specific features such as a 3% decline to 15% incline range, reverse speed up to 3 mph and adult and pediatric medical handrails

MyFlex Plus™ deck cushioning system delivers proportional cushioning effects regardless of user weight and is so durable it has a lifetime warranty

Large 22" x 62" belt provides ample walking space and is constructed from carbon-weave, low friction material that is resistant to static build-up

T652m has an easy-to-use dot matrix display with professionally designed programs. This visually stimulating display also features CardioAdvisor™ and multiple feedback options.
